Notice.

The public are hereby informed that a
Company has been formed under the title
of **THE QUANTICO WAREHOUSE**
COMPANY. The have erected, one mile
below the town of Dumfries, a large and
convenient Warehouse on Quantico creek,
for the storage of flour, grain, etc. which
warehouse will be ready for the reception
of produce on Monday the third of Feb.

next. The trustees of said Company have
appointed Zebulon Kankey their Agent,
to attend the said Warehouse, to receive
produce on storage and grant receipts for
the same. And for the prompt delivery
of all articles received in the said ware-
house by their agent, (fire alone excepted)

the Company hold themselves bound.
All persons depositing flour, grain, etc.
must pay, before taken away, the follow-
ing storage, viz. For each barrel of flour

6 cents; if it remains in said warehouse

one month 8 cents; and in the same pro-
portion for the time it may remain. For

each bushel of wheat or other grain two

cents; if it remains over one month three

cents; and in the same proportion for

the time it may remain. And for all ar-
ticles of merchandise a reasonable stor-
age only will be demanded. Persons

storing flour may have it inspected, or

not, at their option. If not inspected,

the agent's receipt will specify the brand

and the state of the barrels. The weight

of one bushel wheat, running measure of

each load or parcel of wheat. All arti-
cles stored, the same to be returned to

the owner when called for, be it flour,

wheat, other grain, etc. Customary al-
lowances for wastage, etc. excepted.

Quantico Warehouse is situated on

Quantico Creek only two miles from its

junction with the Potomac river, at

all times navigable for lighters. There

are belonging to this creek a sufficient

number of lighters to ensure a brisk

transportation down the creek of all arti-
cles stored. Vessels may be got to take

produce to the district of Columbia, Bal-
timore, Norfolk, or elsewhere. The pre-
sent freights are—To the district twelve

and half cents per barrel of flour, and to

Baltimore and Norfolk 25 cents from the

mouth of Quantico. The proximity of

this warehouse to a large extent of coun-
try, added to the goodness of roads

leading to it from the westward, being

little inferior to paved ones. It being

found by actual survey little more than

25 miles from Hay Market to Dumfries,

will, it is confidently believed by the

trustees, by this route greatly lessen the

expense of transportation of produce

even to the district of Columbia, and

they pledge themselves to the public to

use every means within their power to

give satisfaction.

Mr. Randolph made a long speech against the bill. I am sorry to add, that it is to be his last in that house: at least, he has himself announced as such. Behind him he will leave some rich, manly, energetic eloquence, some sound argument, much good sense, and myriads of volumes in folio,—such as large as the most unwieldy volume of the old Dutch commentators, and still more dull of sterile common sense; but we fear the poignant wit, the exquisite humors, the brilliant fancy, the polished erudition, the aptness and classical allusion, the happy illustration—all of which constitute the most irresistible attraction of his eloquence—will take to their flight along with him. The grounds on which he opposed the bill were—the superior merits of other modes of public improvement—the education of children free of all others—and next to that the repeal of certain taxes which galled the people severely. As administering to military passion he execrated military roads; but was clear in his opinion that if given a dollar as a contribution to the warlike means of the nation the money ought to be bestowed on our Navy which strengthened the country against foreign assault, not on an army which had ever been in all free countries, the ultimate enemy of liberty. Mr. Sheffield, though he had in all the previous debates of the bill voted in its favor, voted against it, in consequence of an amendment that had been introduced, and which, he insisted upon it, realized its effects. General Smith and Mr. Wright spoke against the measure with much warmth, and the argument of the former was very directed to the pocket as Old Sumner used to say, speaking of Mr. Sumner's eloquence, “the pounds, shillings and pence.” His speech seemed to me more weight with the house than all the rest that was said put together. Nevertheless, what with the aid of the anti-slavery friends of the bill, by eighty-six yeas to eighty

TO THE CITIZENS OF ALEXANDRIA COUNTY.

A fellow citizen presumes to call your attention to a subject, which, in his mind, is all important to the future prosperity of that part of the district of Columbia, which forms the county of Alexandria.

The town of Alexandria has a deep interest in the proposition which it is now intention to submit to the consideration of my fellow citizens, which is no other than to endeavour to get the county and town of Alexandria restored back to the state of Virginia. No time is so proper as the present, when Congress and the Legislature are in session.

The arguments in favor of this measure are many and cogent.—Who are under the government of persons who feel no greater concern than strangers do about the prosperity of Alexandria—who consider us troublesome children and treat us accordingly. The laws which have been passed by Congress for the District, are considered as grants of favor, and not of right. We are bound by laws in the enactment of which we are not constitutionally permitted to have any voice. This is a condition the general good does not require that we should be placed in, and not to be endured by a high-minded republican, a condition which no considerations can justify our consenting to remain in longer without making an effort to disenfranchise ourselves. We are forced to submit to whatever laws Congress are pleased to pass, according to the construction which the majority of Congress have given to the words of the Constitution. By that instrument, it is declared, that Congress shall have power to legislate over this district in *all cases whatsoever*. We are taxed in our lands and houses without representation, although the Constitution declares that taxation shall be in proportion to representation. This clause of the Constitution has been considered not applicable to this district, because the power of legislation over it is given in *all cases whatsoever*. If this be a reason for taxing the houses and lands in this territory, it will equally justify the doctrine that none of the provisions of the Constitution apply to the district of Columbia, except that which gives *exclusive legislation* in all cases.

What laws have Congress passed for the benefit of Alexandria? None, except in establishing a court; and that in so careless a manner as to show that they felt no concern about it. They have incorporated some Banks, passed a law amending the charter of the town. How were these obtained? They were obtained by humbly petitioning for them, & asking a grant of them as a *great favor*. I do believe, and honestly express that belief, that a majority of the members of Congress do not, as they are bound by the constitution, look at our situation with interest, and a desire to render to us a share of their time and talents. We have been deprived of self-government; it is said, because the public good demanded it. Then let them treat us with more respect and feeling.

Every territory under the exclusive jurisdiction of the general government, except this district, has a delegate on the floor of congress, who can make known their wants and defend their interest.—What has been done for us, has been granted to importunate applications, made session after session. The business of this district has at no time excited as much interest in the minds of a majority of congress as Amy Barden's horse did. I feel justified in the opinion that some members of congress think the affairs of this District, too low and humble for their great talents to descend to. No law has been passed concerning the general police of this District, although congress has had 16 years to do it—nor has this important subject been ever hinted at in any of the executive communications.

We have been endeavoring to get a law passed for the purpose of building a jail for this county. You all know the situation of the present one. It has been five sessions the exertion of the common council and levy court to obtain a law on this subject. At the close of the last session, a law was with difficulty enacted, but in such a state, that it cannot be executed until another is passed to explain it.

The trustees of the Alexandria Academy, at the last session of congress, endeavored to obtain a law, enabling them to raise a small sum for the use of that institution, in aid of that devised to it by General Washington, without taxing the town, or taking from the public chest.—The mode was pointed out, a mode which those who were to pay assented to. Yet this application was treated with silent neglect. How unlike this is the conduct of Virginia!

This is not all. At the last session a law was passed without the assent of the people of the district, without their knowledge and against their will, depriving them in a great measure of the only right they had left. The law to which I allude is that taking away the right of appeal from the decisions of the circuit court to the supreme court in all cases where the sum does not amount to 1000 dollars.—As the law formerly stood, the right of appeal existed in all cases where the value of the thing in dispute amounted to 100 dollars. By the new law the rights of the poor man are most seriously assailed. The passage of this law is another evidence of the little attention paid to our interest. I have every reason for believing that on the day after the law was

self, not one dozen members knew
 that such a law had been before them.
 In Virginia the poor man can take his
 appeal of 100 dollars to the high court of
 appeals—in England a case of forty shil-
 lings can be taken to the King's Bench,
 and the judges do not consider themselves
 misemploying their time to hear and de-
 cide such cases; nor do they use their in-
 fluence with parliament to induce them
 to curtail the subjects right of appeal.
 The committee of the district of Colum-
 bia are reported a bill, to charter the
 Union Bank of Alexandria, and to ex-
 tend the charters of other Banks, on their
 paying a bonus of nine per cent, to be
 paid out in making a turnpike road from
 Winchester to Leesburg, and from
 Leesburg to Georgetown, and from Win-
 chester to Alexandria, and two per cent for
 the improvement of the navigation of the
 Shenandoah and Potomac rivers. Why
 not lay out the money, which is to be ta-
 ken from Alexandria in making a road
 from Leesburg, to intersect the little
 River Turnpike road, and extending
 westward the roads already paved from
 Alexandria, and in aiding our institu-
 tions for the instruction of youth, and
 particularly of poor children.
 If the general government has offered
 bestow, do they come to the town of
 Alexandria to distribute any of them
 except the most insignificant which must
 be exercised at all times in the town.
 All the public money is expended on the
 other side of the river. Alexandria is the
 consequence of being under the jurisdic-
 tion of the national government, derived
 no peculiar benefit. Her proximity to
 the seat of government and her com-
 mercial advantages will give her the
 same benefits and more under the gen-
 eral government of Virginia.
 Our mother state will do more for us
 than Congress has done or ever will do.
 It will be her interest to foster and take
 care of us. She wishes us back. The
 writer has reason to believe that Vir-
 ginia will cherish our banking institutions.
 She will let us partake of the large
 funds she has set apart for literary in-
 stitutions and internal improvements.
 The county of Alexandria will be con-
 sidered as a county, and be entitled to
 two delegates on the floor of the house
 of delegates of that state, and to vote for
 a member to the Senate. We shall also
 have a circuit court, called a superior
 court of law, established in our town, and
 the poor man will again have an oppor-
 tunity of having his case revised, if he
 thinks fit, by the highest judicial tribunal
 in the state. Justice is more expeditious
 administered in Virginia than in this dis-
 trict, and more wholesome regulation
 for the suppression of immorality and
 punishment of crimes, are to be found
 in that state, than we have any reason to
 hope will ever exist in Alexandria, so
 long as we remain in our present condi-
 tion.
 I have endeavored to make a plain
 statement of you of what I conceive has
 been and is likely to be our treatment
 from Congress, and what we may expect
 if we are permitted to return to our pa-
 triotic state, intending to lay before you
 a petition to Congress to restore us to Vir-
 ginia, and one to the Legislature of that
 state soliciting to be received back to
 our ancient home and rights.

PAUL'S
Patent Columbian Oil.

In respect to which the Proprietor ob-
serves:—

“THE great sales of the Columbian
Oil, since it has been brought
before the public, prove its intrinsic value,
and is a pleasing foreboding of what
we have to expect from its more extensive
circulation.

Many interesting certificates might be
furnished, testifying to the great value of
the Columbian Oil, but we have preferred
giving but few, wishing to rest more
on the merits of the medicine, than on
the effect's produced by certificates from
a source however respectable.

The following are among the complaints
in which the Columbian Oil has been
found very efficacious, viz. rheumatism,
consumption, gout, pains in any part of
the body, but more particularly of the
back and breast: asthma, phthisis, in-
fluenza, colds, coughs, whooping cough,
diseases of the eye and eye lids, tooth-
ache, ear ache, and deafness, cholic,
cramps, external and internal bruises,
sprains and flesh wounds, old sores, ul-
cers, felons, scalds, burns, numps, ex-
scentery or flax, crop, quinsy, diarrhea
or lax, summer complaint of children,
indigestion, loss of appetite, nervous de-
bility, piles, mercurial diseases, espe-
cially in those cases where the system has
been charged with mercury for some con-
siderable time, and in those excruciating
pains subsequent to its too great use and
exposure. Herpes, or diseases of the
skin, such as ring worms, tetter's, scald
head, &c. stiffness of joints and limbs,
palsy, ague and fever, cholera morbus,
scurvy, gleet's, obstructed urine, scurvy,
and in almost all cases of a general or local
nature.

We are aware that in recommending a
medicine in so many diseases, the public,
especially those who have not used the
Oil, may be induced to question its vir-
tues, but a disposition of this nature will
soon be dissipated, when they are inform-
ed that a great proportion of the diseases
are owing to the same general cause.—
And in those cases where the diseases
differ materially in their nature, the ef-
fects produced are nearly the same, al-
though not on the same principle.

FOR SALE.

THE Subscriber offers for sale his ESTABLISHMENT on the corner of Cameron street, situated on the centre of the square between the Bank of Alexandria and the City Tavern—Consisting of a three story Brick House with two stories in the rear, the whole covered with slate and running in one line of buildings from the front 137 feet 6 inches. The house contains 12 rooms beside the store and cellars; 10 of them with fire places, some of them spacious and elegant, and few less than 15 by 13 feet in the clear, except one closet room; one front and two back stairways; a kitchen with two fire places, with stove for cooking, over which are servants' rooms, adjoining a pantry, smoke house and other necessary back buildings.

In front a portico, in the rear a covered way with piazzas to the extreme end of the buildings.

The cellars are large, floored, and fitted up in the neatest manner, equal, if not superior to any in the district; the store over which is finished in the best style, and has been occupied for a length of time past as a fancy store, consisting of China, Delft, Glass and Hard Ware—etc. etc.—The cellars as a Wine, Grocery and Spirit Store, etc.

The purchaser can have the goods on hand, which comprises a good assortment and have been carefully selected, at cost.

On the house, so far, there has been expended and paid upwards of 12,000 dollars. Nearly 15 feet of the lot in front remains to be built on.

The buildings are insured and nearly complete in every particular, and on examination will be found to be an establishment equalled by few here or elsewhere.

About two thirds of the amount for house goods, etc. would be required in cash, or in approved notes at short dates—on the remainder a long credit will be given.

He would wish, also, to sell, on a credit, or would barter for Goods, or Property in the district; two squares of two acres each, in the town of Jefferson, Ohio; both squares join in with the public squares, on which has been erected the market house, court house, jail, etc. The squares are divided into half squares of 33 feet alleys, and to each half square there is attached 8 acres of land immediately adjoining the town, as town farms, and to each square the remainder of 100 acres further distant. This settlement is in a flourishing state, being the county and post town, situated on the Erie Grand, a short distance from Lake Erie, the soil rich and of first rate quality.

Should he not be able to effect the sales above stated in a short time, on liberal and fair terms, he would have no objection to take a Partner in Trade, who, putting in one third or one half the interest he holds in the concern, would reap a proportionable part of the profits in assisting to conduct the business.

JAMES KENNEDY & SON,

BOOKSELLERS, KING STREET,
Have just received from LEE'S PATENT MEDICINE Store, No. 45 Maiden Lane, N. York.

A FRESH SUPPLY
Of the following genuine Medicines.
For the prevention and cure of Bilious and Malignant Fevers, is recommended.

Hahn's Anti-Bilious Pills

THIS Medicine has been attended with a degree of success highly grateful to the inventor's feelings, in several parts of the West Indies, and the Southern & Middle States, particularly in N. York, Philadelphia, Baltimore, Petersburg, Richmond, Norfolk, Edenton, Wilmington, Charleston, and Savannah. The testimony of a number of persons at each of the above places can be adduced, who have reason to believe, that a timely use of this salutary remedy has, under Providence, preserved their lives, when in the most alarming circumstances.

Facts of this conclusive nature speak more in favour of a medicine than columns of pompous eulogy, founded on mere assertion.

It is not, indeed, presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience, for believing that a dose of these Pills, taken once in every two weeks, during the prevalence of our bilious fevers, will prove an infallible preventative; and further, that in the earlier stages of those diseases, their use will very generally succeed in restoring health, and frequently in cases esteemed desperate, and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation, and of every age.

They are excellently adapted to carry off superfluous bile & prevent its morbid secretions—to restore & amend the appetite—to produce a free perspiration and thereby prevent colds which is so often of fatal consequences. A dose never fails to remove a cold if taken on its first appearance—they are celebrated for removing habitual costiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficacious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.

HAMILTON'S WORM DESTROYING LOZENGES.

Which have cured an immense number of persons of both sexes, of every age, and in every situation, of various dangerous complaints arising from worms, and from obstructions of foulness in their stomach and bowels.

This medicine bears no analogy whatever to others of similar titles so commonly complained of, as operating with violence; on the contrary, a particular excellence of this remedy is its being suited to every age and perfectly in it contains nothing but what is constitutionally innocent, and is also mild in its operation, cannot injure the most delicate pregnant lady or the tenderest infant of a week old, should no worms exist in the body; but will, without pain or griping, cleanse the stomach and bowels, of whatever is foul or offensive, and thereby prevent the production of worms, and many fatal disorders. The lozenges are particularly efficacious in carrying off all gross humours and eruptions, feverish and bilious complaints, and are the safest and mildest purgative that can be used on any occasion.

DESCRIPTION OF WORMS.

And the symptoms by which they are known:

Worms which infest the human body, are chiefly of four kinds, viz.—The Terebra, or large round worm; the Ascarides, or small may-worm; the Cucurbitina, or short, flat, white worm; and lastly, the Taenia, or tape-worm, so called from its resemblance to tape. This is often many yards long, and is full of joints. It is most hurtful and most difficult to remove.

Among the symptoms attending worms are—disagreeable breath, especially in the morning; bad and corrupted gums; itching in the nose, and about the seat; convulsions, epileptic fits, and sometimes privation of speech; starting and grinding of the teeth in sleep; irregular appetite, sometimes loathing food, and sometimes voracious; purging, with slimy & foetid stools; vomiting; large and hard belly; pains and sickness at the stomach; slow fever, with small and irregular pulse; a dry cough; excessive thirst; sometimes pale and unhealthy countenance, and sometimes the face coated and flushed.

Persons afflicted with any of the above symptoms, should have immediate recourse to Hamilton's Worm Destroying Lozenges, which have been constantly attended with success, in all complaints similar to those above described.

A dose of this medicine given occasionally during the warm season, will effectually prevent the vomiting and purging of chint—a dreadful disorder, which usually destroys the hands of the inferior part of our citizens it likewise prevents the most and in our

tail remedy known, and has restored sight and strength a great number when in an advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.
